INTRODUCING A NEW SPECIES OF SUV

It's in our nature to be in touch with nature – and each other. But if modern life is pulling you away from what matters most, then let the ŠKODA KODIAQ help you reconnect.

An all-new vision of what an SUV should be, the KODIAQ's stunning exterior design is as robust as it is beautiful. Its 4x4 capabilities take on any terrain with effortless ease, while inside a host of connectivity features, generous space and unmatched comfort will make the entire family hungry for adventure. And as always, numerous Simply Clever features ensure that your escapades remain fully practical.

The KODIAQ is yet another example of our philosophy of making beautifully designed cars that are as passenger-focused and a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

BEAUTY OF THE BEAST

Ready to take on the toughest conditions, the ŠKODA KODIAQ radiates majestic power. Its precise, sharp lines are shaped by ŠKODA's design language for SUVs, making it distinctive, emotional and timeless. Whether judged on its details or as a whole, it's clear that form and function are in perfect harmony. The KODIAQ is a muscular beauty that combines a robust body with impressive off-road capability.

HEADLAMPS AND FOG LAMPS

The concept for the front headlights is one of the KODIAQ model's characteristic elements. The location of the sharply drawn fog lamps at the height of the radiator grille, where they are protected from damage, clearly shows the car's off-road ambitions.

SIDE VIEW

The sharp edges combined with smooth surfaces create unique conditions for the effective interplay of light and shadow. The square wheel arches and the protective sill covers show that this car is equally at home on dirty roads.

REAR VIEW

The silver roof railings emphasise the attractiveness of the exterior. The vertical black extensions which merge with the roof spoiler and border the rear window improve aerodynamics. The rear lights penetrate deep into the fenders, thus also perfectly illuminating the car from the side.

DOOR SILL STRIPS

The style quotient of the car is underlined by the front decorative door sill strips with the KODIAQ inscription - a clear nod to the car's overall blend of form and function.

ŠKODA INSCRIPTION / PLASTIC STRIP

With the unmistakable ŠKODA inscription in the back the car proudly declares its family allegiance. The plastic strip between the reflectors for better visibility of the car has an aesthetic as well as practical function. It runs around the edge of the luggage space, protecting the bumper from damage during load handling.

PANORAMIC SUNROOF

The KODIAQ opens up new vistas with the electrically-adjustable panoramic sunroof, which enhances the feeling of space.

LIGHT DESIGN

THE ART OF ILLUMINATION

Innovative crystalline design meets innovative technology. With its mysterious beauty, the illuminated KODIAQ represents an impressive experience and is also the uncompromising embodiment of the credo "see and be seen".

FULL LED HEADLAMPS WITH AFS AND FOG LAMPS

Two types of headlamps and fog lamps are available for the KODIAQ. The top-end option is all about LED technology. The LED headlamps offer high-performance and high-energy efficiency. The AFS (Adaptive Frontlight System) adjusts the lighting intensity to specific conditions (e.g. city, motorway or driving in the rain), while the main headlamps boast an eye-catching integrated strip of LED daytime running lights. Under poor light conditions the LED fog lamps come into their own, ensuring your maximum safety.

LED REAR LIGHTS

The rear lights have LED technology as standard, while the crystalline design refers to Czech cubism and the country's glass-making tradition. Their sharp lines and distinctive C-shape, which is typical of ŠKODA cars, makes vehicle stand out confidently.

INTERIOR DESIGN

INNER BEAUTY

Make your space more cosy and comfortable with soft, harmonious ambient lights running along the inside of the car, setting the perfect mood for any journey.

AMBIENT LIGHTING
You can choose your favourite colour, or complement each day with one of ten amazing colour options. And in vehicles equipped with the Virtual Cockpit (see previous pages) or Maxi DOT colour display this will also determine the background illumination.

Green ambient lighting

Blue ambient lighting

Red ambient lighting

FOOT AREA ILLUMINATION
The discrete illumination turns a comfortable space into an exceptional one. Experience ultimate comfort thanks to the interior lights, and enjoy a discreetly lit ambience during your journey.

CONNECTIVITY

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

The KODIAQ helps you stay connected wherever you are. To be online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication possibilities.

ŠKODA CONNECT

This offer includes two categories of service. While Infotainment Online delivers real-time information to navigation about traffic, for example, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers an assistance service for any situation that needs it.

PARKING POSITION

Retrieve the exact location of your car in large car parks from anywhere, by displaying the address, time and date of parking on your mobile phone.

DRIVING DATA

Information about your journey, such as average consumption, average speed, distance and journey time, is stored. You can display your personal driving data and have an overview of all your trips.

ONLINE PERSONALIZATION

You will appreciate this service especially if your car is driven by multiple users. Set your comfortable seat position, digital dashboard layout or air conditioning parameters – the settings will be synchronized with your ŠKODA ID account. Therefore next time you log in to your car after it was driven by someone else, you can comfortably set off with your preferred settings. With online personalization, you can set your preferred settings not only in your car, but in any ŠKODA vehicle that allows it.

eCALL

The SOS call is placed automatically during an emergency where the restraint system has been activated. This emergency system can also be activated manually by pressing the red button on the roof console.

ONLINE TRAFFIC INFORMATION

Always take the best route: up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams.

WEATHER

Get the latest weather report for your current location, destination or anywhere else with detailed forecasts, including precipitation predictions and warnings.

INFOTAINMENT ON THE GO

Infotainment has moved on in leaps and bounds: You can look forward to an attractive design and plenty of amazing functions, while the KODIAQ seamlessly syncs with your external devices. Better still, your kids will never get bored on a journey.

ŠKODA CONNECT APP

Have your vehicle always within your reach and enjoy its full control. Download ŠKODA Connect and access all necessary features anytime, whether it's driving data, fuel range, planning a route or even where you last parked. Purchasing all or just some of these service packages will give your car a host of new features, encompassing entertainment on the road, care and your safety.

PHONE BOX

This practical phone compartment, located in front of the gear stick, creates an amplified signal for your mobile device. At the same time, it wirelessly charges your phone while driving. Two optional USB-C data slots located in the centre console allow you to easily connect and pair your external devices with the infotainment system, without any need for dongles or adapters. An additional USB-C slot, which is ideal for charging devices mounted on the windscreen, can be found in the roof panel.

SMARTLINK

With the SmartLink system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. (Visit our website for usage terms and compatibility information for SmartLink.)

INFOTAINMENT

The new generation of infotainment offers new functions. The top-end option comes with the Columbus 9.2" (shown) and Amundsen 8" infotainment systems with navigation. In addition to the touch or gesture control, you can operate the devices via Laura, the digital assistant. This new enhanced and online-based voice control system can answer queries about a wide variety of topics and follows commands. For example, it will start navigation to a desired destination, find a favourite piece of music or take dictation for an SMS. The Web radio feature also comes as a bundle in combination with the Columbus and Amundsen infotainment systems. It allows you to expand the usual portfolio of conventional stations with your other favourite channels, podcasts, and news. You can tune in and listen in high quality to any radio streaming service in an area covered by the Internet.

CANTON SOUND SYSTEM

Enjoy absolute sound clarity, whether it's music or the spoken word, on the Canton Sound System with eight speakers, including a speaker in the dashboard and subwoofer in the luggage compartment. The total power output is 575 watts.

**SIMPLY
CLEVER**

ŠKODA'S LITTLE HELPERS

Life is easier when equipment is practical. The KODIAQ thus comes with features based on your real needs and includes Simply Clever details that are as ingenious as they are intuitive.

UMBRELLA STORAGE COMPARTMENT

An ingenious compartment with original ŠKODA umbrella is fitted inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry.

DOOR EDGE PROTECTION

Your car can also be equipped with a door edge protection. When opening all side doors, plastic strips eject and cover the edges. In this way the KODIAQ protects itself against damage as well as being considerate to other cars. Perfect for tight parking spaces, for instance.

TICKET HOLDER

When you need to display a parking ticket in a visible place, the solution is simple. The car is equipped with a parking ticket holder under the windscreen.

ICE SCRAPER

The ice scraper is mounted on the fuel cap and it's not a problem to replace it there when wet. Here you will also find protection against incorrect fuel filling, designated for cars with a diesel engine.

A POCKET FOR EVERYTHING THAT MATTERS

Children, dogs, bears, toys, snacks, plus situations you cannot anticipate – that’s par for the course when travelling with the family. And the KODIAQ can handle it.

JUMBO BOX
The spacious storage compartment is housed in the front armrest. You can, for example, store your electronic items safely inside. The Jumbo Box can also be equipped with drinks and coin holders.

UNIBAG
When using the removable Unibag designed for transporting skis or a snowboard, you can fold down the middle seat backrest. Comfortable rear seating for two passengers will be maintained.

UPPER STORAGE COMPARTMENT

You will find this surprisingly spacious compartment with tilting lid in the upper part of the dashboard by the front passenger seat.

LOWER STORAGE COMPARTMENT

The closed tilting storage compartment in the lower part of the dashboard by the front passenger seat can be air-conditioned, so you have a place to store chilled refreshments during your travels.

SUNGLASSES COMPARTMENT

This practical compartment located above the interior rear-view mirror is within the driver's and front passenger's reach.

BOTTLE AND MOBILE PHONE HOLDERS

We haven't forgotten about the comfort of passengers on the third row of seats. They will appreciate the holders in the luggage compartment side cover.

REFLECTIVE VESTS

The vests can be located in the storage compartments in the front and rear doors, ensuring they are always within reach.

FRONT DOOR COMPARTMENTS

You will find a 1.5-l bottle holder and a rubber strap in a spacious compartment in the front door. This is also where you can place a removable waste basket.

DRIVER'S STORAGE BOX

The driver can utilise a practical tilting storage compartment located directly below the steering wheel.

FOLDABLE TABLES

Built into the backrests of both front seats, the foldable tables with drink holders can be used for more than just refreshments.

The image shows the interior of a Volvo KODIAQ, focusing on the second and third rows of seats. The seats are upholstered in dark leather with light-colored stitching. The third row is folded down, showing the storage compartments. The interior features ambient lighting and a modern design. The text "SPACE TO SHARE" is overlaid on the left side of the image.

SPACE TO SHARE

How big is your family? Up to seven people can travel with ease thanks to the version of the KODIAQ model that has an optional third row of seats.

The elegant, functional interior inspires confidence and evokes a peaceful ambience. Digital Voice Enhancement can transmit the driver's and front passenger's voice to the rear part of the car. All the better for reconnecting with family and friends on that great outdoor adventure.

LUGGAGE, WITHOUT THE BAGGAGE

A look behind the 5th door will impress you because the KODIAQ offers unrivalled boot capacity and exceptional variability. In addition, we offer a range of Simply Clever details and solutions which you can choose according to your specific needs.

VIRTUAL PEDAL

How do you open or close the luggage compartment when your hands are full? Just swipe your foot underneath and, hey presto, it will open for you automatically. The virtual pedal enables contact-free access and it's available exclusively with the electrically-controlled 5th door and KESSY (Keyless Entry, Start and exit System).

ELECTRICALLY-CONTROLLED 5TH DOOR

It opens and closes at the mere touch of a button on the remote control or in the driver door, especially handy during unfavourable weather. You can also adjust the upper door position to suit your needs. There is a button for closing the 5th door directly on the door, too.

TOWING DEVICE

The KODIAQ has a foldable towing device with electric release. The switch is in the luggage compartment. The towing capacity of the car is up to 2.5 tons.

ROOM FOR EXPECTED GUESTS

Five-seat interior

CAPACITY

With the five-seat interior layout, you can have 835* litres of luggage space and 2,065 litres with the rear seats folded. No wonder it's called 'The Great Indoors'. The rear seats can be folded using a remote release button located in the luggage compartment.

* According to the backrest position and variable position of the rear seat.

HOOKS

The robust foldable hooks, located on the sides of the luggage compartment, make your bags easier to transport and more secure.

NET PROGRAMME

One horizontal and two vertical nets increase the flexibility of the luggage space while firmly securing objects.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty, and can easily turn it over to utilise the washable rubber side when required.

DOUBLE FLOOR

The double floor places the bottom of the luggage compartment on the loading edge level, facilitating easier luggage handling. In addition, it provides a discrete storage place.

ROOM FOR UNEXPECTED GUESTS

Seven-seat interior

CAPACITY

If you aren't planning a journey with a full load of passengers, you can create the luggage space that you happen to need in the seven-seat version of the car. Lay the third row of seats flat, and you get 765* litres. Lay flat the second row as well, and you get a massive 2,005 litres.

* According to the backrest position and variable position of the rear seat.

HOOKS

Hang up bags on the titling hooks and you will find everything in its right place after the trip.

NET PROGRAMME

The seven-seat version also comes with practical details to make the car even more versatile. In the luggage space you will find hooks for the net programme to help you keep everything tidy in the car and prevent luggage from shifting.

DOUBLE FLOOR

When using the third row of seats, it is necessary to remove the luggage space cover. The double floor provides a special storage space for it, so you don't have to keep it in the garage or at home.

CARGO ELEMENTS

To avoid any undesired movement of luggage while driving, these are stowed away in the compartments behind the rear wheel arches when not in use.

COMFORT

COMFORT IS YOUR CO-DRIVER

The KODIAQ lets you turn a routine trip into an extraordinarily pleasant experience. Treat yourself to some luxury on your journey to work or the shops, for the children when they are going to school, or for trips to see friends. Set out for ordinary, routine destinations with a special feeling.

MULTIFUNCTIONAL STEERING WHEEL

The multifunctional leather steering wheel, which lets you control the radio, phone and alternatively the DSG, can be equipped with heating function, controlled via the infotainment system (see photo above). In vehicles with the Virtual Cockpit, you can change the display layout via the View button on the multifunctional steering wheel.

KESY

Cars equipped with KESY (Keyless Entry, Start and exit System) feature a Start/Stop button on the steering column for keyless ignition and switching off the engine.

HEADLAMP WASHERS

Integrated telescopic headlamp washers easily take care of dust and mud.

AREA VIEW

You will feel much more confident behind the steering wheel with four cameras that sense the space around the entire vehicle. They are located in the front grill, external side-view mirrors and on the handle of the 5th door. The picture is transmitted in real time to the infotainment display so you can react quicker to whatever comes your way.

LED BOARDING SPOTS

The Boarding Spots with LEDs, designed to illuminate the entry area, are located on the external side-view mirrors.

A young woman with long blonde hair is sitting in the driver's seat of a car, looking out the window with a slight smile. The car's interior, including the dashboard and window frame, is visible. The background outside the car shows a blurred green landscape with trees. The word "SAFETY" is written in large, white, bold, sans-serif capital letters across the middle of the image.

SAFETY

TRAFFIC JAM ASSIST / FOLLOW DRIVE

This function is designed to facilitate driving in traffic jams. By controlling the engine, brakes, and steering, it makes the vehicle pull away, brake, and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h). If lanes are not detected at speeds of up to 30 km/h, or only one lane (line) is detected at speeds of up to 60 km/h, the Follow Drive system follows the trajectory of the vehicle in front of you until lane markings are available again.

TRAVEL ASSIST

The Travel Assist system as well as its higher version combine the functions of several assistants and ensure that you feel safe and comfortable, no matter where you drive. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behavior is detected by the capacitive steering wheel.

PREDICTIVE ADAPTIVE CRUISE CONTROL

Using a radar device, camera equipped with traffic sign recognition, GPS technology and detailed information from the road map, pACC can predict driving conditions for the next 1 - 2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or when entering an area with a reduced speed limit. The system increases driver comfort and driver safety while also reducing fuel consumption and CO₂ emissions.

LANE ASSIST+

Operating at speeds above 60 km/h, Lane Assist+ can help to keep the car in the middle of correct lane. This system can also take control of the car in the event of lane changes during roadworks.

EMERGENCY ASSIST

Emergency Assist reduces the risk of an incident in the event of the driver's sudden health collapse, for example, by safely stopping the car and turning on the warning lights.

TRAFFIC SIGN RECOGNITION

The system uses the camera in the rear-view mirror to scan the traffic signs on the current stretch of road and notify the driver of traffic signs. The system is able to identify signs on both the left and right sides, as well as above the road. Moreover, it is able to identify variable traffic signs too (electronic information boards).

SIDE ASSIST

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70 m away) monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

REAR TRAFFIC ALERT

The system warns the driver of rear traffic as they pull away from a row of perpendicularly parked vehicles (visually on the infotainment display/ onboard computer display or acoustically), or, if the case so requires, intervenes proactively, i.e., stops the car.

PARK ASSIST

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking place in a row of parallel or perpendicularly parked vehicles.

The Side Assist, Rear Traffic Alert, and Park Assist come as part of the Travel Assist higher version.

ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur on route, additional assistants with multiple functions are on hand to help or fill in for the driver.

AUTO LIGHT ASSIST

Your Light Assist will switch to high beam and back automatically, increasing comfort and safety in traffic.

CREW PROTECT ASSIST

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash or overturning by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts.

MULTI-COLLISION BRAKE

In case of an accident, the Multi-Collision Brake starts braking to prevent further uncontrolled movement of the vehicle, thus reducing the likelihood of further collisions.

SAFETY FIRST. AND SECOND...

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can have your car equipped with up to nine of them.

FRONT DRIVER AND PASSENGER AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

KNEE AIRBAG

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS

These four airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.

KEEPS THE CUBS SAFE

The KODIAQ is an excellent choice for everyone who wants to ensure the best safety for their children on the road. The reliable and robust body, equipped with many advanced safety elements, protects little passengers under all circumstances. Enjoy a feeling of maximum assurance and peace of mind.

ELECTRIC CHILD SAFETY LOCK
Just one push of a button and your children's journey will be even safer. The child safety lock will prevent them from opening the rear windows and doors.

A SPACE FOR CHILDREN
Your children will ride in the back in absolute safety and comfort. Putting the children into car seats is pleasant business, too, thanks to the large side doors and lots of space in the rear part of the interior. You can find a mount preparation for two child seats with Isofix safety on the rear side seats.

PERFORMANCE

FORCE OF NATURE

Every family has a different story: Frequent trips to the mountains, or long drives along the motorway. Towing a trailer. An urban adventure or off-road expedition. Whatever the story, we have the right alternative for every family. And in every case we offer dynamism combined with excellent fuel consumption.

DYNAMIC CHASSIS CONTROL*

The Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. DCC always comes in combination with Driving Mode Select and allows you to choose Comfort, Normal or Sport mode.

PROGRESSIVE STEERING

The impressive handling of the car is further enhanced with progressive steering. Requiring smaller steering input by the driver, this feature results in a much more dynamic driving experience, especially around corners.

* Available for both 4x4 drive and front wheel drive.

PETROL ENGINES

The petrol engines on offer are 110 kW and 140 kW. One interesting option on offer is the 2.0 TSI/140 kW engine with B-cycle, designed to reduce fuel consumption and emission levels in partial load operation. A gasoline particulate filter (GPF), which reduces particulate emissions, is also included in petrol engines.

TRANSMISSION

Depending on the engine version, the car can be equipped with manual 6-speed transmission or 7-speed DSG.

DIESEL ENGINES

Our offer includes 110 kW and 140 kW engines. With regard to the environment and emission standard, our diesel range uses Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NO_x). The volume of the AdBlue® tank is 18l and the consumption depends on the driving style.

ADAPTS TO ANY ENVIRONMENT

The KODIAQ with 4x4 drive has an adventurous spirit and great potential. Naturally you will appreciate its great handling during every journey, but you'll enjoy it most of all off-road. High hills, deep valleys, gravel, mud, snow, potholes? No problem.

ALL-WHEEL DRIVE

The 4x4 drive is provided by an inter-axle electronically-controlled multi-plate clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of front-wheel drive, and under extreme conditions the excellent traction of the 4x4 drive.

SNOW MODE

The Driving Mode Select for the 4x4 version includes Snow Mode, which ensures good handling even on low-grip surfaces.

OFF-ROAD MODE

With the intelligent Off-Road-Mode system, which operates at speeds of up to 30 km/h, you can handle even extreme terrain. It is designed to adjust the characteristics of the engine, electronic assistants and stability control systems. The activated functions are shown on the infotainment display.

DSG AND 4X4

Whatever the conditions throw at you, enjoy absolute comfort and fuel efficiency with 4x4 drive and automatic 7-speed DSG.

LAURIN & KLEMENT

TAKE A STEP UP

The ŠKODA KODIAQ's best equipment version is named after our founders, Laurin and Klement. Because it bears their names, nothing has been spared – a chrome grille, exclusive Laurin & Klement badges, unique 19" Sirius alloy wheels in anthracite design and interior trims allow you to conquer new ground in style. You can also opt for 20" Vega or 20" Ignite anthracite alloy wheels with wider 255/40 R20 tyres, which emphasize the dynamic look of the car.

BADGE

As proof of the car's distinctiveness, a badge is included on the front wings.

INTERIOR DESIGN

The interior features beige or black leather upholstery with the Laurin & Klement logo embroidered on the front seat backrests.

While the electrically-adjustable front seats with built-in memory also come as standard, the ventilated front seats, always in combination with perforated leather/leatherette upholstery in the front and rear, are optional. Driving pleasure is further enhanced by exclusive equipment including, among other things, the multifunctional leather steering wheel, LED ambient lighting and door armrest stitching.

scout

SURVIVAL OF THE TOUGHEST

To overcome a difficulty, one must first adapt to it. That is the mantra of the ŠKODA KODIAQ SCOUT. Taking the outdoor-loving KODIAQ one step further, its SCOUT avatar – coming exclusively with 4x4 drive – grows some muscle to withstand the most challenging terrain without breaking a sweat.

SCOUT BADGE

The car features the original Scout badge included on the front wing fenders.

DOOR SILL STRIPS

You will find the KODIAQ inscription on the front decorative door sill strips.

EXTERIOR DESIGN

The robust body with protective plastic elements, including silver cover on the rear bumper, radiates a huge appetite for adventure. Thanks to the rough road package on the chassis including, for example, the lower engine and transmission cover, you can go off paved roads without fear. The car's distinctive look is underlined with 19" Braga or optional 19" Crater (see photo) anthracite alloy wheels.

INTERIOR DESIGN

The black upholstery in a combination of Alcantara® and leather/leatherette, the specific décor as well as the Scout logo on the front seat backrests and dashboard are characteristic interior features (shown). The upholstery in a combination of perforated leather/leatherette with ventilated front seats is optional.* You can also opt for the Mythos Glossy Black décor. The LED ambient lighting running along the inside of the car offers ten appealing colour options. The door armrest stitching further enhances your sense of comfort.

* The Black Suedia ceiling, available exclusively in combination with the panoramic sunroof, is also optional. Available for the interior with ventilated leather seats.

SPORTLINE

SET QUICKER LAP TIMES FOR YOUR PULSES

Now you can stay wild at heart while looking sporty. The ŠKODA KODIAQ SPORTLINE gives every adventure a refined makeover.

EXTERIOR DESIGN

The black features, such as external side-view mirror caps, front grille frame and the spoiler, give the car a unique look combining the ferocious attitude of the KODIAQ with the individualistic traits of the SportLine version. The anthracite alloy wheels (optional 20" Vega shown) underline the sports styling of the car. You can also opt for even wider 20" Ignite anthracite alloy wheels with wider 255/40 R20 tyres, which emphasize the dynamic look of the car.

INTERIOR DESIGN

The upholstery comes in a combination of black Alcantara® and leather/leatherette with silver stitching. While the front sports seats and black ceiling enhance the interior sports style, the door armrest stitching increases your sense of comfort. The electrically-adjustable driver seat with built-in memory is supplied as standard. The front seats, which feature cushion depth adjustment, are available as an option.* Night time drivers will appreciate the LED ambient lighting offering ten colour options and running along the inside of the car.

STYLISH DOOR PANELLING

Alcantara®, which stands out with its distinctiveness and excels with its durability, is also incorporated in the door panelling.

* These seats can also be ventilated, upholstered in perforated leather/leatherette.

RS

GO EVERYWHERE, QUICKLY

The ŠKODA KODIAQ RS goes where no ŠKODA has gone before. To complement the most powerful TDI engine we've ever built, commanding 240 hp (176 kW), we added a 4x4 drive system with 20" alloy wheels. This ensures sporty handling, whether you're on the road or nowhere near it.

RS DESIGN

The individuality of the car is highlighted with stylish details such as original RS badges on the rear and front. The exhaust pipe end pieces in polished stainless steel finish, specially tuned to produce the engine's sporty sound, accentuate not only the sporty look of the car, but also its powerful character. The dynamic sound boost further emphasises the engine sound.

INTERIOR DESIGN

Designed in exclusive black, the interior with front sports seats appeals to dynamic drivers as well as passengers who yearn for comfort. The front seats, which feature cushion depth adjustment, are available as an option.* The multifunctional sports steering wheel in perforated leather is decorated with red stitching and RS badge. The upholstery comes in a combination of black Alcantara® and leather/leatherette with red stitching.

XTREME WHEELS

The distinctiveness of the 20" Xtreme anthracite alloy wheels (shown), which come as standard for the RS version, is further highlighted with red brake calipers. You can also opt for 20" Ignite anthracite alloy wheels with wider 255/40 R20 tyres, which emphasize the dynamic look of the car.

* These seats can also be ventilated, upholstered in perforated leather/leatherette.

A top-down view of various mushrooms scattered across a weathered wooden plank surface. The mushrooms include several large, light-colored boletes with thick stems, smaller brown-capped mushrooms, bright orange chanterelles, and a cluster of delicate, light-colored gills in the lower-left corner. The lighting is bright, casting soft shadows and highlighting the textures of the fungi and the wood.

CUSTOMISATION

ACTIVE

The standard equipment of the Active version includes external side-view mirror caps and door handles in body colour, black roof railings, tinted windows, LED rear lights, LED daytime running lights and 3rd LED brake lamp. In addition, there's remote-control central locking, KESSY GO (for keyless switching on and off of the engine), multifunctional leather steering wheel and gear stick knob, Maxi DOT, Swing radio, electrically-controlled front and rear windows, air conditioning, sunglasses compartment, electromechanical parking brake, plus more.

ACCESSORIES

ENHANCE YOUR ADVENTURE

Get ready to explore, re-discover and reconnect. All you need is to adapt the car to the specific wants and needs of your family. ŠKODA Genuine Accessories, which can increase the safety, practicality and charm of your car, are the best solution.

CHILD SEAT

The Kidfix II XP child seat is, in addition to Isofix belts, attached using the Top Tether system on its rear side. The seat has three adjustable positions (sitting, resting and lying) and is designed for children from 9 kg up to 18 kg.

DOG SAFETY BELT

If one of your usual passengers is a dog, we recommend equipping your car with a special safety belt.

SMART HOLDER – CLOTHES HANGER

The practical clothes hanger, for your jacket, for example, can be mounted to the front seat headrest.

SMART HOLDER – HOOK

Handbags or backpacks don't have to take up space on the back seats. Hang them from the smart holder hook fixed to the front headrests.

SMART HOLDER – MULTIMEDIA HOLDER

The holder for an external device, which can be mounted on the front seat head-rests, will definitely be appreciated by the rear seat passengers.

NET WITH POCKET

The practical net with pocket below the retractable luggage compartment cover can serve as a safe storage place for items that you would like to transport separately from other objects.

FOLD-OUT BOOT MAT WITH COVER

The fold-out double-sided (rubber/textile) mat lets you cover the rear bumper while loading to protect it from soiling and damage.

PLASTIC BOOT DISH

If you often carry things that might soil the luggage compartment, the plastic boot dish, which can be easily removed and washed, is the perfect solution. The dish can be equipped with an aluminium partition, which enables you to split the space according to your needs.

DECORATIVE DOOR SILL COVERS

The accessories range also includes stylish and practical door sill strips with aluminium insert.

ROOF BOX

Using a roof box solves the common problem of transporting luggage that does not fit in the boot of a fully occupied car when travelling for winter or summer sports.

BICYCLE CARRIER FOR TOW BAR

The rack is extremely sturdy, easy to fit, and easy to use – simply lift the bicycle up a little to secure it in place. It works with all types of tow bars and is available in 2- and 3-bicycle variants.

WHEELS

20" XTREME black and red alloy wheels

19" TRIGLAV black alloy wheels, brushed

20" VEGA platinum matt alloy wheels, brushed

19" CRATER anthracite alloy wheels, brushed

19" BRAGA anthracite alloy wheels, brushed

19" SIRIUS silver alloy wheels, brushed

BOLT CAPS

Our offer includes decorative bolt caps for wheels with and without safety bolts.

DECORATIVE VALVE CAPS

With tyre valve caps bearing the ŠKODA logo, your car will look stylish down to the smallest detail.

SAFETY BOLT SET

The safety wheel bolts supplied with a special adapter provide your vehicle with greater protection against the attempted theft of your wheels. All you need to do is swap one standard bolt on each wheel with a safety wheel bolt.

COMPLETE WHEEL COVERS

This set of high-quality polyester wheel covers enables easy wheel transport and handling.

ŠKODA CARE PRODUCTS

Since ŠKODA wants to stay by your side many years after your purchase and help you with all the situations which may occur during the car's lifetime, ŠKODA Care products were developed. ŠKODA Care products keep you mobile, provide maximum possible comfort, safety, and good value for money.

ŠKODA INSURANCE

Nobody knows your ŠKODA quite like the people who made it, which is why we can always offer the best cover for you and your car. ŠKODA Insurance is a member of the ŠKODA AUTO branded product family. It is a comprehensive car insurance that offers even greater comfort to our clients in case of unexpected events.

ŠKODA EXTENDED WARRANTY

Quality and reliability are key reasons why you would opt to drive a ŠKODA. They not only apply to a new ŠKODA car, but also to ŠKODA service. Extend your driving pleasure from 2 years up to 5 years or 150,000 km with the ŠKODA manufacturer extended warranty and protect yourself from any unexpected repair costs. Your standard benefits with ŠKODA extended warranty:

- Expect no exceptions. ŠKODA extended warranty is similar to the 2-year manufacturer's warranty. Repair is carried out exclusively at a ŠKODA Service Partner
- You can be sure that only the latest technical information and processes are used
- Use of ŠKODA Genuine Parts during repair is ensured
- When trading in your car, you can expect a higher value

ŠKODA SERVICE AND MAINTENANCE PACKAGES

ŠKODA service and maintenance packages are specifically designed for customers who want to keep their car in prime condition, and as immaculate as the day they bought it. It is a good way to not only keep your ŠKODA running smoothly and safely, but also helps you invest in its future value and protect yourself from unexpected costs or inflation. Service and maintenance packages use only genuine ŠKODA approved parts and specialist ŠKODA trained technicians, so you know your car is in the hands of experts.

* All these services are provided free of charge.
The specific scope of services on the local market is to be defined by the importer.

ŠKODA MOBILITY WARRANTY

Sometimes, unforeseen circumstances can arise and in the unlikely event of a breakdown, you may need assistance with your vehicle. ŠKODA Mobility Warranty gives you the assurance that you will reach your destination, even if your vehicle breaks down. In the event of a vehicle breakdown, you can call our roadside assistance service, ŠKODA Assistance, which will give you the best possible advice and professional help. It is operational 24 hours a day, 365 days a year. ŠKODA Assistance provides the following services*:

- Guided help on the phone
- On-the-spot breakdown assistance
- Towing service to the nearest ŠKODA Service Partner, incl. transportation of passengers, if breakdown cannot be rectified on the spot
- High-priority repair at a ŠKODA Service Partner
- If the repair cannot be provided on the day of breakdown, the ŠKODA Service Partner or ŠKODA Assistance will provide the following options:
 - a) Courtesy car for 3 working days max.
 - b) Overnight stay for passengers for 1 night
 - c) Alternative transportation (train or bus, or also taxi in cities)
