A BRAVE NEW WORLD

The ŠKODA SCALA is a bold step forward for the brand. Its sophisticated shapes create a striking play of light and shadow that blend timeless design with sporty character. Its dynamic silhouette is embraced by a practical spirit that makes the car the perfect partner for every stage of life.

The SCALA also offers abundant technologies uncommon in the compact hatchback segment. Advanced assistance systems and a new generation of infotainment mean you can stay safe without compromising on fun, on every journey.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

GIVE THE EVERYDAY A SPORTY JACKET

Good design agrees with the heart and the head. Like in the SCALA. This compact hatchback with a sporty spirit represents the dynamic and emotional of ŠKODA's design language, while offering excellent aerodynamic driving properties.

BLACK FEATURES

To add a more sporty and individual signature to daily driving, the SCALA can be enhanced with the optional black panoramic roof, roof spoiler, glass extended over the 5th door and attractive 18" Vega Aero alloy wheels.

AERODYNAMICS

Every edge, contour and dimension of the car has been created to optimise aerodynamics. A desirable balance between its width and height projects safety and reliability.

REMAIN IN THE SPOTLIGHT

Light doesn't just illuminate. It inspires. The unique headlights and slim long tail lights make the car instantly recognisable. The crystalline light design with integrated LEDs represents a perfect blend of Czech crystal tradition and modern technology.

Bi-LED HEADLIGHTS

The top-end option is all about LED technology including corner function. The strip of LEDs for daylight driving positioned at the upper part of the headlight lends the car its sporty charisma.

FULL LED TAIL LIGHTS

The SCALA features horizontally designed tail lights where the original light signature is accompanied by perfect functionality. The top-end option comes with the full LED tail lights, which are fitted with animated turn indicators.

INTERIOR DESIGN

IT'S WHAT'S ON THE INSIDE THAT COUNTS

Stepping inside the SCALA is equally impressive. The well-appointed interior radiates with sleek design cues, exceptional spaciousness and cutting-edge digital technology.

STYLE AND FUNCTIONALITY

The SCALA's interior is furnished with quality materials and great craftsmanship. Multiple combinations of upholstery and décor mean you can give your car a unique personality.

In the roof panel, you can find an additional USB-C slot which is ideal for charging devices mounted on the windscreen.

VIRTUAL COCKPIT

The Virtual Cockpit displays on-board computer specifications in combination with other information such as navigation. You can choose from five layouts (extended view shown) controlled via the 'View' button on the steering wheel. The SCALA's Virtual Cockpit features a 10.25" display.

AMBIENT LIGHTING

Make your space more cosy and comfortable with LED ambient lights running along the dashboard. Your car can be equipped with white, red or copper lighting.

CONNECTIVITY

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment, information, and possible assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication options.

CALENDAR

With the Calendar app, designed for work-related activities, you can spend your travel time productively and safely. The application allows you to conveniently access and interact with your calendar while driving. Using the navigation button, the Calendar app will navigate you to your planned meetings. You can also join conference calls using a connected mobile phone. All of the content is synchronised online and linked to your account for seamless transition between your devices.

PARKING POSITION

The vehicle sends its location data to the backend server once the journey is completed. You can then find the position of your parked vehicle using the MyŠKODA app.

ONLINE TRAFFIC INFORMATION

With Online Traffic Information, you always get up-to-date information, saving you time and the stress of sitting in traffic jams. If enabled, the navigation system will automatically recalculate the route to arrive at the destination just in time.

ADDITIONAL CONNECTIVITY OPTIONS

Discover additional options and features. For example, with Laura, a digital voice assistant is available in your car. With the SmartLink feature, supporting Apple CarPlay and Android Auto, the car's infotainment system allows you to use your phone safely while driving. You can also enhance the in-car connectivity with additional Infotainment apps such as Weather, News, Digital manual, Traffication, and many more.

LAURA DIGITAL VOICE ASSISTANT

This online-based voice control system understands fluent sentences. Say the destination with natural voice input, dictate text messages, or even ask her to tell you a joke. The online part of Laura is ready for anything. To start fulfilling your wishes, simply contact her by saying "Okay, Laura!"

TRAFFICATION

The Traffication app increases your safety by providing traffic-related warnings from the vicinity of the vehicle. Running in the background, it alerts you if you are attempting to drive the wrong way down a road. Notifications are also shown in the event that hazard lights are activated in the radius of your vehicle.

**SIMPLY
CLEVER**

THE CAR WITH AN IQ

The SCALA is equipped with a range of Simply Clever details that can handle all your needs. From loading your luggage or folding your towing device to adjusting the interior space to find room for big and small things, these thoughtful features take the headache out of travelling.

FOLDABLE BACKREST

The foldable backrest of the front passenger seat gives the car even greater variability and allows you to transport objects with unusual dimensions.

TOWING DEVICE

The SCALA has a foldable towing device with electric release. The switch is in the luggage compartment.

ELECTRICALLY-CONTROLLED 5TH DOOR

It opens and closes at the mere touch of a button on the remote control or in the driver's door, especially handy in unfavourable weather. You can also adjust the upper door position to suit your needs. A button for closing the 5th door is also located on the door itself.

DOUBLE FLOOR

The double floor places the bottom of the luggage compartment on the loading edge level, facilitating easier luggage handling. In addition, it provides a discrete storage place.

**ICE SCRAPER**

The ice scraper, which is mounted on the fuel cap, can also be used to measure the depth of the tyre tread.

**LIQUID RESERVOIR**

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible, but also has an integrated funnel.

LUGGAGE COMPARTMENT

DON'T PACK LIGHT

Don't think twice about what to take or not. The generous luggage compartment capacity of 467 litres, and 1,410 litres after folding down the rear seats, puts this car at the top of its class. In addition there are many options for ensuring your stuff stays in its place, without damaging the car.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty, and can easily turn it over to utilise the washable rubber side when required.

NET PROGRAMME

One horizontal and two vertical nets increase the flexibility of the luggage space while firmly securing objects.

NET UNDER THE COVER

This net under the luggage compartment cover can serve as a safe storage place for items that you would like to transport separately from other objects.

COMFORT

TRAVEL COMFORT CLASS

Whatever comfort means to you, you'll find it right inside the SCALA. Travel in total ease with smart details like power connectors and sophisticated infotainment with GPS. In other words, unmatched comfort in its class.

AMUNDSEN 9.2" INFOTAINMENT

Attractive design is accompanied by perfect functionality. In addition to the touch or gesture control, you can operate the device via Laura, the digital assistant. This new enhanced and online-based voice control system can answer queries about a wide variety of topics and follows commands. For example, it will start navigation to a desired destination, find a favourite piece of music or take dictation for an SMS. The Web radio feature also comes as a bundle in combination with the Amundsen infotainment system. It allows you to expand the usual portfolio of conventional stations with your other favourite channels, podcasts, and news. You can tune in and listen in high quality to any radio streaming service in an area covered by the Internet. Combined with the Virtual Cockpit, the Amundsen infotainment system also offers the Traffic Sign Recognition function.

ONLINE PERSONALISATION

You will appreciate this service especially if your car is driven by multiple users. Set Individual driving profile, digital dashboard layout, or air conditioning parameters – the settings will be synchronised with your ŠKODA ID account. So, the next time you log into your car after it has been driven by someone else, you can comfortably set off with your preferred settings enabled. With online personalisation, you can set your preferred settings not only in your car, but in any ŠKODA vehicle that supports this.

HEATING FUNCTIONS

The heating function of the front windscreen, which quickly clears frost or steam, and heating of the multifunctional steering wheel are controlled via the infotainment system.

PHONE BOX / USB

The SCALA comes with an enlarged phone box which creates an amplified signal for your mobile device and, at the same time, wirelessly charges your phone while driving. This compartment is not only easily accessible, but is also suitable for large display devices. Two USB-C ports located in a centre console allow you to easily connect your external devices without the need for dongles or adapters.

KESY

The car equipped with KESY (Keyless Entry, Start and exit System) or with the simpler version Easy Start features a Start/Stop button on the steering column.

**RETRACTABLE MIRRORS**

The automatically retractable external side-view mirrors fold in when the car is locked, thus protecting them against damage.

**CRUISE CONTROL**

Practical Cruise Control or advanced Adaptive Cruise Control up to 210 km/h (see Safety chapter) are both available.

ELECTRICALLY-ADJUSTABLE DRIVER SEAT

For the best feeling behind the steering wheel, we offer you the electrically-adjustable driver seat.

**HEATED SEATS / USB**

In cold weather, your friends and family will appreciate the heated rear seats, which are regulated by a separate control on the rear side of the front armrest. Two USB-C slots enable universal mobile phone charging.

**ŠKODA SOUND SYSTEM**

Enjoy absolute sound clarity on the Sound System developed by ŠKODA for the SCALA. The system features ten speakers, including a central speaker in the dashboard and subwoofer in the luggage compartment. Among other features the sound can be adjusted according to how many people are in the car and where they are sitting via the All, Front and Driver profiles. The device offers a total power output of 405 watts.

SAFETY

TRAVEL ASSIST

Travel Assist combines Adaptive Cruise Control (including Front Assist), Adaptive Lane Assist, and Traffic Sign Recognition functions. For maximum safety, it must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel. Travel Assist comes exclusively in combination with the Virtual Cockpit and Amundsen infotainment system.

ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, in addition to its basic cruise control function, Adaptive Cruise Control (not shown) maintains a safe distance from vehicles in front of you. This system operates up to speeds of 210 km/h. Depending on various factors, Predictive Adaptive Cruise Control (shown) is also available. For more information, contact your ŠKODA partner.

ADAPTIVE LANE ASSIST

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

PARK ASSIST

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking place and safely parks in a row of parallel or perpendicularly parked vehicles.

ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

SIDE ASSIST

Using radar sensors in the rear bumper, Side Assist which can detect other vehicles and even less detectable objects like cyclists up to 70 m away, monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

REAR TRAFFIC ALERT

This assistant, which comes as part of the Side Assist system, helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

MANOEUVRE ASSIST

Using the sensors of the Park Assist, this system offers protection from obstacles within driving distance of the car (at speeds of up to 8 km/h). If an obstacle is detected, based on the distance from the obstacle and the car's speed, the system engages the emergency braking.

PARK DISTANCE CONTROL

Parking the SCALA is easier and safer with the parking sensors integrated in the front and rear bumper, which check the car's distance from any obstacles.

AUTO LIGHT ASSIST

Your Light Assist will switch to high beam and back automatically, increasing comfort and safety in traffic.

MONTE CARLO

LOOKS SPORTY AND SPICY

The dynamic silhouette and sporty spirit of the SCALA fits perfectly with the Monte Carlo design. The black exterior features add more ferocity to the look of the car and underline its sporty charisma.

STYLE AND FUNCTIONALITY

The Monte Carlo version features among other things the darkened glass extended over the 5th door, roof spoiler in black, panoramic roof and black rear diffuser.

BLACK FRONT AND SIDE

The black front grille frame gives the Monte Carlo version a ferocious expression. The car is also characterised by other black features such as an add-on part on the front bumper, door sill covers and external side-view mirror caps. The black alloy wheels come as standard (optional 18" Vega shown).

FEELS COSY AND COMFORTABLE

Who said that being sporty rules out staying cosy? The SCALA MONTE CARLO features front sports seats, specific red/black upholstery and instrument panel in Monte Carlo design. In the interior you will also find leather features. The multifunctional sports steering wheel comes in perforated leather with black stitching. The standard equipment also includes black ceiling, pedal covers in alloy design and LED ambient lighting in red or white.

UPHOLSTERY WHEELS COLOURS

The SCALA MONTE CARLO features specific red/black fabric upholstery partly in carbon look.

The 17" Volans black alloy wheels come as standard.

The distinctive look of the car can be underlined with optional 18" Vega black alloy wheels.

G-TEC

ECONOMICAL + ECOLOGICAL = LOGICAL

The formula for driving smart is to combine lower emissions with lower driving costs. This natural-gas-powered ŠKODA SCALA G-TEC completes the engine roster for this compact model, adding a particularly efficient and eco-friendly variant. That's a choice that stands to reason.

CNG AND PETROL SWITCHING

Switching between the two fuel systems is automatic. The engine is started using CNG and then continues in CNG mode. Should the CNG run out, the car will automatically switch to petrol mode.

ENGINE AND TANKS

The car comes with an agile three-cylinder 1.0 TGI/66 kW G-TEC engine. In CNG mode (compared to running on petrol), CO₂ emissions are reduced. The car's environmental friendliness is also declared by lower emissions of nitrogen oxides (NO_x) and no solid particles. Three steel CNG tanks can carry 13.8 kg of fuel, which enables you to cover around 410 km. Combined with the nine-litre petrol tank, this makes for a total range of around 630 km. Thanks to the clever way the CNG tanks are integrated into the vehicle, the luggage compartment can offer a capacity of 339 litres (with the rear seat backrests upright). This puts the SCALA G-TEC in the top spot for natural-gas-powered compact hatchbacks.

BLACK PACKAGE

BLACK FEATURES

The car's distinctive look can be underlined with the Black package, which includes a number of black exterior elements. While the external side-view mirror caps and front grille frame are in glossy black, the window frames and rear diffuser come in matt black. You can opt for the 16", 17" or 18" (shown) black alloy wheels.

STYLISH REAR AND TOP LIGHTS

The car equipped with the Black package also features darkened glass extended over the 5th door and full LED tail lights fitted with animated turn indicators.

CUSTOMISATION

ACTIVE

The standard equipment of the Active version includes external side-view mirrors (electrically-adjustable) and door handles in black, bumpers in the body colour, chrome front grille frame, tinted windows, LED headlights including LED daytime running lights, interior door handles in chrome, remote controlled central locking, black/white Maxi DOT, Swing 6.5" infotainment, two USB slots, and more.
